## SKILLS

**Languages:** C, Python, HTML, CSS

**Databases/Tools** MySQL, PostgreSQL, Git, GitHub, Figma, Proteus, Auto Cad

**Soft Skills:** Problem-Solving, Team Collaboration, Project Management, Adaptability

## PROJECTS

### Smart Hospital Bed Detection Sensor

Nov 2025 - Dec 2025

- Architected a smart hospital bed detection system using ESP32 and sensors, enabling real-time monitoring of bed occupancy and availability.
- Engineered an automated bed-status detection workflow, accurately identifying occupied and vacant beds to support efficient hospital resource management.
- Integrated ultrasonic/IR sensors to continuously monitor bed availability and provide reliable occupancy detection with minimal manual intervention.
- Developed a centralized monitoring interface displaying real-time bed status, helping healthcare staff quickly identify available and improve patient allocation efficiency.

**TechStack:** ESP32, Ultrasonic Sensors, IR Sensors, Arduino IDE, HTML, CSS, Javascript.

### Hangman Game | Python

Feb 2025- April 2025

- Developed a Python-based Hangman game implementing interactive gameplay and program-driven word-guessing logic.
- Engineered the core game workflow to manage player guesses, track game progress, and determine successful or unsuccessful attempts.
- Implemented structured Python logic for handling user input, game states, and progression throughout the gameplay.
- Collaborated within a team to design, code, test, and refine the game functionality.

**TechStack:** Python, HTML, CSS, JavaScript.

## TRAINING

### Lovely Professional University

Jun 2025 - Jul 2025

#### Community Development Program with TOI

Times Critical Thinking Championship

- Learned an applied community development methodologies to identify local environmental concerns and create practical, community-centered awareness initiatives.
- Completed an end-to-end Community Development Program (CDP) with TOI for TCTC on Environmental Awareness, covering community interaction, problem identification, awareness planning, implementation, and evaluation.

## CERTIFICATES

- |                                                  |           |
|--------------------------------------------------|-----------|
| • DCA   ICAT                                     | June 2025 |
| • Leadership Fundamentals   EduTech Hub          | Oct 2025  |
| • Introduction to Python   Saylor                | Feb 2026  |
| • Community Development Program   Times of India | July 2026 |

## ACHIEVEMENTS

- Completed practical coursework and technical training across programming, databases, and development tools.
- Collaborated on multiple programming and hardware-based projects, contributing to implementation, testing, and debugging

## EDUCATION

### Lovely Professional University

Bachelor of Technology

Computer Science and Engineering: CGPA: 7.24

Phagwara, Punjab

Aug' 25 – Present

### St. John Residential Hr. Sec. School

Intermediate

PCBM; Percentage: 73%

Dimapur, Nagaland

Mar' 24 – May' 25

### St. Joseph Hr. Sec. School

Matriculation

Percentage: 89%

Chumoukedima, Nagaland

Mar' 22 – May' 23
